OVERVIEW

Revenue from gambling in Australia is derived primarily from state and territory direct taxes, licence fees and mandatory contributions.

The industry is subject to relatively high taxes with a percentage returned to the community to provide information programs, problem gambling prevention programs and assistance to those experiencing gambling-related problems.

In 2016-17, gambling taxes in Australia amounted to approximately \$6 billion. On a per capita basis, gambling tax per adult was highest in the Northern Territory and lowest in the ACT.

Gambling taxes in the 2016-17 financial year accounted for a significant proportion of total state and territory taxes.

In Western Australia gambling revenue accounted for a smaller proportion of total revenue (2.5%). The restriction in Western Australia prohibiting gaming machines at clubs and hotels explains, to a large extent, this relatively low proportion.

Please note that gambling taxation rates throughout the Australian states/territories are complex and can be detailed. The following is designed as a brief guide to major rates/levies only. Information is for the 2017-18 period. Detailed information regarding State and Territory taxes should be sourced from the relevant Acts and regulations of Parliament.

Casinos

Australian Capital Territory

- Tax** A tax rate of 10.90% applies to gross revenue from general gaming operations and 0.90% from Commission-based operations.
- Licence** An up-front licence fee of \$4,459,385 was payable by 7 February 2015 for the five year period ending 6 February 2020.
- An annual licence fee of \$891,877, adjusted for CPI movements, is payable thereafter (with the first payment due by 7 February 2020).

New South Wales

- Tax** A single progressive rate scale (indexed annually) applies to gross revenue from both table games and electronic gaming machines.
- In 2017-18, a base rate of 16.41% applies to gross revenue up to \$739.5 million. The rate increases by one percentage point up to a rate of 37.41% over 21 revenue bands. A top rate of 38.91% applies to revenue above \$869 million.
- A 10% tax applies to high roller gaming revenue, with a minimum of \$6 million paid in two \$3 million instalments each year.
- Licence** One off payment of \$256 million paid in 1995 for exclusive 12 year licence.
- Exclusivity agreement extended for 12 years from November 2007 for a fee of \$100 million.
- Levy** A Responsible Gambling Levy of 2% of gross gaming revenue is payable.

Northern Territory

In South Australia, tax rates are based on annual net gambling revenue in a financial year. However, the tax is calculated and paid for on a monthly basis by club venue operators.

Tasmania²²

The Federal Group has the exclusive rights to conduct casino operations and operate gaming machines in Tasmania.

On and from 1st July 2013, a tiered approach to taxation on gaming machines was replaced by a flat tax rate of 25.88% of monthly gross profit.²³

An additional 4% Community Support Levy is derived from the gross profit on gaming machines.

²² Gaming is also offered on Spirit of Tasmania ships (TT-Line - Admirals Casino). Gaming machines are taxed at 17.91% of gross profit and all other forms of gaming at 7.91% of gross profit (TT-Line Gaming Act 1993).

NON GAMBLING TAXATION CONTRIBUTIONS

While gambling taxes constitute, for the most part, the most significant taxation burden on the gambling industry there are several other taxation levies to which gambling providers may be subject including:

- Federal Government Taxes – such as company income tax, good and services tax (GST) and fringe benefits tax (FBT); and
- Other State/Local Government taxes – including payroll tax, stamp duties on property transfers and various local government rates and levies.

(Please note that the available data for the casino industry is more current than that available for hotels and clubs and therefore cannot be directly compared).

Both Clubs Australia and the Australian Hotels Association in their submissions on the 2009 Productivity Commission Draft Report into gambling made comment on the non-gambling taxation contributions of the club and hotel industry.

Casinos

In 2009-10, the total taxes paid to the Commonwealth, state/territory and local governments by the casino industry reached nearly \$1.16 billion, which represents approximately 30% of the total revenue generated by the casino industry.³⁶
